PROFESSIONAL SUMMARY

Information Science and Engineering Graduate with hands-on experience in software development, full-stack web development, and enterprise systems. Passionate about building scalable applications and solving real-world problems.

EDUCATION

Don Bosco Institute Of Technology 2022 - 2026
B.E in Information Science and Engineering 9.1 CGPA

WORK EXPERIENCE

Johnson Controls Jan 2026 – June 2026
IT Intern Bengaluru

- Administered the NiCE CXone platform by provisioning agents and skills, configuring ACD routing and campaigns, managing role-based access, and troubleshooting production issues.
- Diagnosed and resolved Microsoft 365 production issues involving Exchange Online, Teams Phone, SharePoint Online, mail flow, permissions, and authentication while managing ServiceNow incidents within SLA.
- Contributed to the Persona 360 project by analyzing Microsoft 365 E5 license requests and mapping job roles to application usage patterns to help define user personas for automated license assignment.

THWorks Nov 2025 – Jan 2026
Software Developer Intern Bengaluru

- Developed scalable Node.js microservices in an event-driven automation platform, customizing text-to-speech and speech-to-text pipelines for AI-powered text and image generation based on user input.
- Integrated enterprise applications including LinkedIn, Slack, and other third-party services using OAuth 2.0 and REST APIs, enabling automated content publishing and cross-platform workflow automation.
- Developed a React Native mobile application with offline data synchronization, AI-powered speech-to-notes processing, contact management, and local LLM integration.

SKILLS

- Languages:** JavaScript, TypeScript, Python, Java(Basics), SQL.
- Frontend:** Next.js, React.js, React Native (Basics).
- Backend:** Node.js, Express.js, FastAPI.
- API & Authentication:** REST APIs, JWT, Axios, Postman.
- Databases:** MongoDB, PostgreSQL, MySQL.
- Cloud & DevOps:** AWS(EC2, S3, VPC, Lambda), Docker, Linux, Git, Jenkins, GitHub Actions.
- Core CS:** OOP, Operating Systems, DBMS, Computer Networks.
- Enterprise Tools:** M365 Administration, ServiceNow, NICE CXone, SLA Tracking, Enterprise Application Support.

PROJECTS

Smart Care Assistant | Node.js · Next.js · MongoDB · Python · Flask · Docker GitHub | Live

- Developed the complete full-stack healthcare application using React, Node.js, Express.js, and MongoDB, implementing separate portals for patients, doctors, and administrators.
- Built secure RESTful APIs for appointment scheduling, patient records, prescription management, vitals tracking, and JWT-based authentication with role-based access control.
- Implemented Cloudinary integration for medical document uploads, cron-based medication logging, and email notifications for medication reminders, while integrating an existing ML service for adverse drug reaction detection.

SnapCart | React.js · Node.js · MongoDB · JWT · Recharts · Cloudinary GitHub | Live

- Developed a full-stack MERN e-commerce platform featuring product browsing, search, shopping cart, and order management for customers, along with a dedicated admin dashboard.
- Built secure RESTful APIs for product, user, and order management using Express.js and MongoDB, implementing JWT-based authentication and role-based access control for Admin and User roles.
- Designed responsive React interfaces, integrated Cloudinary for product image management, and developed an admin dashboard with sales and inventory visualizations.

CERTIFICATIONS

- **Programming in Java:** NPTEL | June 2024
- **Frontend Development:** PearlThoughts | Nov 2025
- **DevOps:** Elevate Labs | June 2025
- **Coding & Programming, IoT:** Samsung Innovation Campus | July 2024
